

[PILOT PLAN]

PILOT: REGIONAL TRAINING DAYS

A pilot to test: one training day per quarter, one host city, and new members from several chapters in the same room. Any chapter can pick this up and run it.

WHY TEST IT

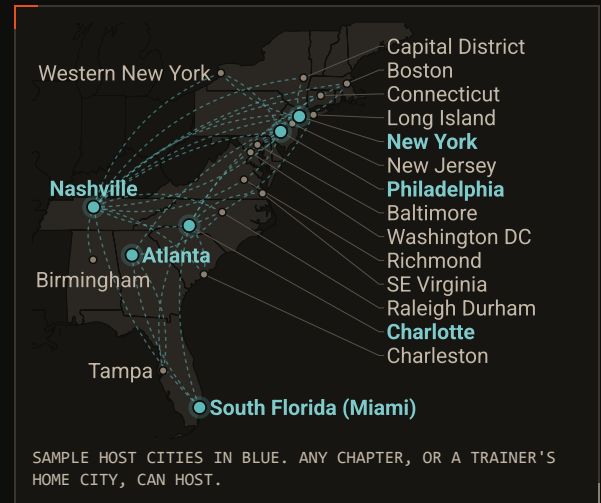

Intake classes are shrinking. Most chapters end up training three or four new members at a time: a thin small-group FTP, a virtual session, or a long wait for a class of six.

Pooling gives every class a full room, a shared trainer, and an early look at how big EO is. Local members at the welcome dinner become ambassadors to the new class.

Retention follows. Forum members who have been to an event outside their chapter renew at 95%.*

Small rooms cost more. A training with fewer than six people costs a chapter \$250 per person.

We would measure members trained, chapters represented, cost per member against training alone, how members rate the day, and how many show up at the next regional event.

ROLES AND BUDGET

HOST CHAPTER

- ✓ Books a local member's fancy restaurant (and invites the owner to dinner) plus a hotel block.
- ✓ Invites its board, or the whole chapter, to dinner as ambassadors. A welcome committee, and no one has to bring an apple pie.

SENDING CHAPTERS

- ✓ Pay their own members' flights.
- ✓ Chip in \$100 to \$200 per member toward dinner if the host is not covering it.
- ✓ Split the trainer's travel.

TRAINER

- ✓ Leads a full day and joins the dinner when the schedule allows.
- ✓ Or trains in their home city, and their travel cost drops to zero.

THE REGION

- ✓ Ask the region for Forum, Membership, or Engagement funds to offset some of the costs.

Run it as a pilot. Test it this year.

A PILOT TO TEST. TAKE IT AND RUN WITH IT.

*Prior data: a member who has visited an event outside their local chapter and is in forum has a 95% renewal rate.
